print@cpldigital.com.au (03) 8376 8376 Pricing update : FEB 2015

^{**} Staff at the front counter may not always be able to stop and download or prepare files as you wait without prior notice.

^{**} To reduce consultation times, it may be to your benefit to cull your images to the ones required for printing. If you have a holiday of 1200 images, only bring in the ones that you need.

^{**} If you are planning on using store bought frames, work out in advance what sizes are available and what size you think you might want. We can then let you know if your image will work in that frame - eq. what cropping may be required or if the file is too small for the frame size chosen.

CHROMIRA PHOTOGRAPHIC PRINTS

Lustre & Gloss Only

Our LED printer and High-Grade Fuji papers, produce the best print possible. The images are not colour corrected as standard, but the image correction option is available at an additional cost, and includes exposure, white balance, contrast and saturation adjustment. Call for a price on a custom size print. \$10 Minimum Charge.

These prices are direct out put only - please add image correction, cropping or consultation fee if applicable. Please email "print@cpldigital.com.au" with your requirements for Exhibition pricing.

FILM SCANNING & DIGITAL COPIES OF PRINTS / ARTWORK

Whether you need us to scan a 35mm negative, or make a digital copy of a piece of artwork, we can do it all.

We price depending on the resolution required, and which device is used, so film scanners for negatives and slides, and flatbed or Hasselblad camera for prints and artwork copies. No colour correction or retouching is normally applied, so ask for a quote if you require retouching spotting. See our website for more information about the scanners and quality. Minimum Charge \$10.00.

Bulk Pricing raw scans - Apply the following discounts for volume scanning and copying. Files are uncorrected and unspotted.

10 - 20 = 25% Discount 21+ = 40% Discount

Bulk Pricing corrected scans - Minor clean up (max 50% spotting) - No volume discounts apply.

Individual or Bulk Pricing corrected scans - Spotting at 100%, colour correcting and clean up - Add 100% to pricing.

Digital files printed directly to canvas

There are two choices of canvas printing. The first is a high quality ink cotton canvas print. This printing method still has the edge in image quality and colour tone, and once varnished with a protective coating, are durable and scratch resistant. If you are reproducing original artwork to the highest quality, then Artist Canvas is the one for you. Stretched around a high quality frame and wire hung.

The second option is a commercial grade canvas, that comes with protective varnish for durability and scratch resistance. While not as high quality as the Cotton Artists Canvas it is printed on the same machine. It also can be stretched around a high quality frame and is wire hung.

If you need a canvas reproducing from any format other than digital, we will need to charge for an additional scanning/copying service.

Additional charges may apply if file is insufficiently prepared for canvas stretching. Cost will vary depending on individual images.
